What are people saying about My Possibilities?

Thank you so much for a wonderful evening at the Luau Party. I can hardly put into words how impressed I was with everything and everyone at My Possibilities last night. Such a blessing to see what a warm, nurturing, gentle environment you have there. And everything was first rate! You can't imagine my joy in working with the photos I took this afternoon. All 211 of them made me joyful and grateful. May God continue to bless all that you do for others,

Mother of HIPster

I like to take this opportunity to thank you for the wonderful tour of the My Possibilities Day program facility on Friday 20th March. My husband and I are extremely thankful to have found this great day program for our son. After visiting with you we signed a contract for a house in McKinney and we are closing in early May and moving soon after from South Texas. I cannot wait for our son to start attending My Possibilities.

I think for many of us, gatherings like last night (February social) bring us closer to all our humanity in its' purest form. There is no pretense, no judgment, just love and acceptance. Who would not want to experience more of that? It heals the soul and reassures us of God's presence.

Yesterday was my first day to volunteer at My Possibilities and I just wanted to let you know what a wonderful experience it was for me. I must say, the HIPsters are an extraordinary group of people! It was such a privilege to work with them. Everyone was so welcoming and I thoroughly enjoyed getting to know them. The entire staff is great too.... I must admit that I was very impressed with Reggie, however, for he is probably one of

the most patient and kind people I have ever met. I look forward to helping out again next week during spring break.

I toured the My Possibilities program with my daughter recently, and she was hesitant to be part of it, at first. But after she attended the social in January, 2009, she became more excited about it. She had made a friend, she said, and enjoyed all the activities especially the karaoke. I haven't seen her this excited to take part in anything for a long time. I was comforted to see her joy.

I think everyone should take a tour of this program, as I was very impressed by it and the people who work there.

We turned in her application this week and look forward to her being a part of this new community that feels like family!

I plan to volunteer to help make this community successful and will attend the next social on February 28, 2009. I hope the larger community of Dallas will support this very professional and needed program.

I found your website on while searching for volunteer opportunities in the area. I've been listening to Kidd Kraddick in the morning, and he has something going on called "My Turn Day." He is asking all his listeners to proclaim to the world that they want to make a difference in the world. I have always wanted to do volunteer work because I feel like my life has been blessed, and I want to start giving back. I felt like this was a good time to start with all of the bad times in the world these days. When I came across your website, I realized that I could start my vocations with you. My youngest brother actually has down syndrome. He is 18, and he lives with my parents in ... I feel like he is a blessing from God, and he brings a smile to my face every time I see him. I want to help people like him, and when I saw what you guys did, it really touched my heart. If you still need help for the Bowling Fundraiser on the 14th of this month, please feel free to contact me.
